DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The sole recitation of a doped layer and a dopant barrier located between said doped layer and a layer fail to limit the field of the invention. The claims fail to provide any structure to incorporate with the doped layer, the dopant barrier, and a layer as recited in the claims. Furthermore, the claims are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The claims are objected to under 37 CFR 1.75, as being so incomprehensible as to preclude a reasonable search of the prior art by the examiner. The sole recitation of a doped layer, a dopant barrier, and a layer fail to limit the field of the invention in order to perform a proper search of the claims. Applicant is required to submit an amendment of the claims so that the examiner may make a proper comparison of the invention with the prior art.

Response to Amendment

3. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.
